

ENVIRONMENTAL AND ENERGY POLICY

- Our main goal is to maintain our commercial and industrial existence in an environment friendly manner.
- Our organization is determined to voluntarily and consciously implement all legal and other obligations regarding Environment and Energy.
- It is our aim to periodically determine, realize and periodically review environmental and energy goals and objectives and to improve them continuously.
- Sürdürülebilir kaynak yönetimini dikkate alarak, Considering sustainable resource management, our continuous efforts are,
 - Reducing the use of raw materials and energy by returning our product waste to production as much as possible,
 - Working with external stakeholders for the reuse and recycling of waste,
 - To turn to alternative processes that do not require water in order to reduce water consumption,
 - To make our way to the use of renewable energy produced from carbon-notr natural resources
- We take care to maintain a responsible chemicals management system for the entire supply chain, including chemical supply, storage, transportation and use, and waste management.
- We take care to protect ourselves and external stakeholders from exposure to noise emissions, to further demonstrate our environmental responsibility and to take the necessary measures.
- We are committed to protecting animal welfare, air quality, water quality and soil quality, using appropriate technology and methods in all our processes and ensuring their continuity.
- We take it as our responsibility to monitor greenhouse gas emissions within the scope of combating climate change and to act in harmony with the efforts to add value to the low carbon economy.
- We promise that we will realize our production and investments by complying with environmental and energy legislation, without polluting the environment and taking into account energy efficiency.
- We expect the people, institutions and organizations we interact with directly or indirectly to comply with the Environmental and energy legislation.
- It is our permanent goal to continue our Environment and Energy studies with the latest information and with the participation of all internal and external stakeholders.

General Manager
Süleyman Gökoğlu

A handwritten signature in blue ink, appearing to read "Süleyman Gökoğlu", is written over the printed name of the General Manager.
